Palmanova, City Fortress and UNESCO World Heritage Site

The only example of a city of foundation still intact in its form of a nine-pointed star, Palmanova is one of the most important models of military architecture in the modern age, with its star plan formed by three concentric walls, two of them built by the Serenissima Republic of Venice made up of nine bulwarks and nine ravelins and a third, the most external, made up of nine "lunette", added by Napoleon at the beginning of the 19th century.

In 1960 the fortress was declared a **National Monument**.

On July 9 2017 it became part of the **UNESCO World Heritage Site**.

Since 2018 it has also been included among the **Most beautiful Borough in Italy**.
